
RECOMMERCE EXPO – 5TH EDITION ADVANCING SUSTAINABILITY THROUGH REPAIR, REFURBISH, RECYCLE AND REMANUFACTURE

Recommerce, is a brand of Urdhva Management and the pioneering force in leading the charge towards a brighter future for the industries, A category-defining company dedicated to building a sustainable reverse commerce ecosystem

The Recommerce Expo, now in its 5th edition, embodies an exceptional display of collaborative enterprises meeting on the global platform. It champions the imperative of sustainability in a world that is earnestly seeking resolutions to its intricate ecological challenges. Rooted in the principles of **repair, refurbishing, recycling, and remanufacturing, this pivotal event has evolved into a paramount gathering that transcends borders and industries. By concentrating its efforts on three pivotal sectors – **WEEE, Battery, and Automotive** - the event orchestrates a harmonious symphony of **knowledge sharing, cutting-edge technologies, and visionary strategies**.**

- **04th September:** - Day 2 – Battery Repair, Refurbishing, and Recycling
- **05th September:** - Day 3 – Automotive Repair, Refurbishing, and Recycling

Highlights:

- **Global Refurbisher’s Networking Meet**
- **Recommerce Circular Vision Award with Networking Cocktail Dinner**

The expo has been thoughtfully curated through discussions with industry stakeholders who emphasize the importance of active government and industry participation in stabilizing both the informal and formal sectors. It will bring together the entire value chain under one roof across three days, to trade, debate, discuss, engage, network, and grow the ecosystem. It will cover several highly targeted topics with a holistic approach in order to debate, discuss the existing challenges, raise awareness, and chart out the way forward.

Join us in Bangalore this September to be part of the solution, to network, to learn, and to drive the change towards a circular economy. The future is collaborative, and together, we can create a lasting impact.
